

## MK Tehila Friedman goes viral with message of the Common Good

Tehila's speech, with English subtitles

Dear All,

We are as proud as can be that Shaharit's message hit the political mainstage with Tehila Friedman's first speech as a Member of Knesset given only three days ago. The speech is presently lighting up the Israeli internet, with over one million views (!) and still counting.

Tehila has been a central figure in Shaharit for almost a decade, running our Intellectual Fellows Program and recently launching our high profile religious Zionist leadership program.

Based on the avalanche of interest this speech has generated, commentators are pointing out how much Israeli society is thirsty for a vision for Israel's future rooted in the 2020 Israeli reality of conflicting worldviews.

We are so moved by Tehila's unique voice and leadership, and how much her message is resonating throughout Israel. We hope that you will also be moved by its emotional force and visionary passion - imagining an Israel that finds a place for all. Please feel free to circulate.

Eilon and the Shaharit team

Tehila with Shaharit 120 Program Graduate Iman Khatib-Yassin,  
also a new Member of Knesset
